SUMMARY

MCA student with a strong foundation in the MERN stack (MongoDB, Express.js, React, Node.js), building responsive and dynamic web applications. Currently specializing in Cybersecurity, learning to integrate security best practices into web development. Passionate about creating robust, user-friendly, and secure applications while exploring modern technologies like blockchain and AI.

WORK EXPERIENCE

Front-end Development Intern

1 month

Gained hands-on experience in front-end web development using HTML, CSS, JavaScript. Improved skills in building interactive web interfaces and ensuring cross-browser compatibility.

Tech Stack: HTML, CSS5, JavaScript and Bootstrap.

PROJECTS

Netflix-GPT

Tools: ReactJS, TailwindCSS, Redux Toolkit, Firebase, Gemini AI

Built a Netflix-inspired web application with a responsive UI using ReactJS and TailwindCSS. Implemented global state management with Redux Toolkit and integrated Firebase for authentication and data storage. Enhanced user experience by integrating Gemini AI to deliver intelligent, personalized movie recommendations in real time.

DevMate - Developer Networking Platform (Microservices Architecture)

Tech Stack : MERN stack, JWT, bcrypt, Socket.io, TailwindCSS

Devmate is a MERN-based developer networking platform built with a microservices architecture, featuring JWT authentication, bcrypt-secured passwords, and Socket.io for real-time chat. It enables developers to create profiles, connect, and collaborate through a secure and responsive interface.

EDUCATION

2024 - present	MCA at AMC Engineering College	(GPA: 8.20/10)
2021 - 2024	Bachelor's of Computer Application at SVR College	(GPA: 8.0/10)

SKILLS

Languages:	JavaScript (ES6+), C, Java
Frontend:	React, Tailwind, Redux, DaisyUI,
Backend	Node.Js, Express.js, RestAPI, JWT, Socket.io
Tools & Platforms:	Git, GitHub, VS Code, Postman, AWS (EC2)
Testing:	Jest
